CAPPING HW #3 – FRONT END

The screenshots attached to GitHub do not reflect mock ups. They are actual depictions of the front end design which Team WAR has completed and reviewed with the client.
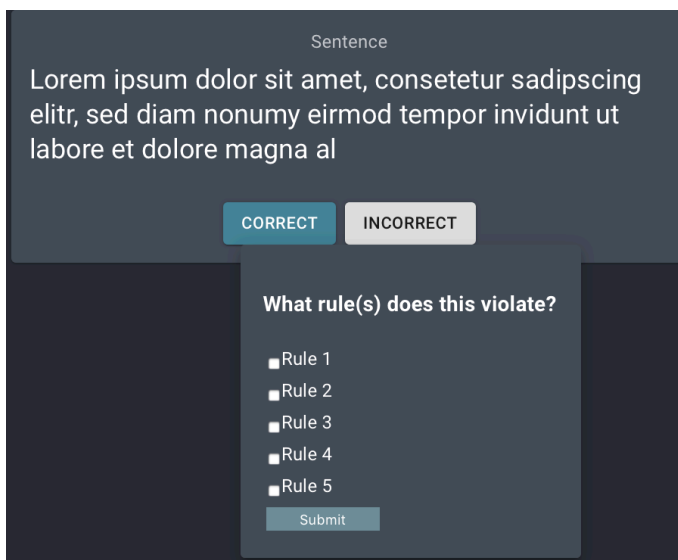

Front Landing Page

This screenshot shows the main view of the front landing page which includes the main components of the reviewing tool. This includes a side bar, a leaderboard, a rank system, the sentence reviewer, and a display of the rules. The below screenshots will include more detail on each of these components.

Sidebar

On the left hand side of the application there is a side bar which consists of tabs. The **Dashboard** tab is the main landing page. The **About** tab page will include information about the application as well as information about the creators of the application – Team WAR. The **AI** tab will include a radar chart and graphical display for training model data that is collected from the application involving the accuracy of reviewing and how many sentences are being reviewed. The **Log Out** tab is used for a reviewer to log out of the system. The **Help** tab is for FAQs the reviewer may come across when using the tool.
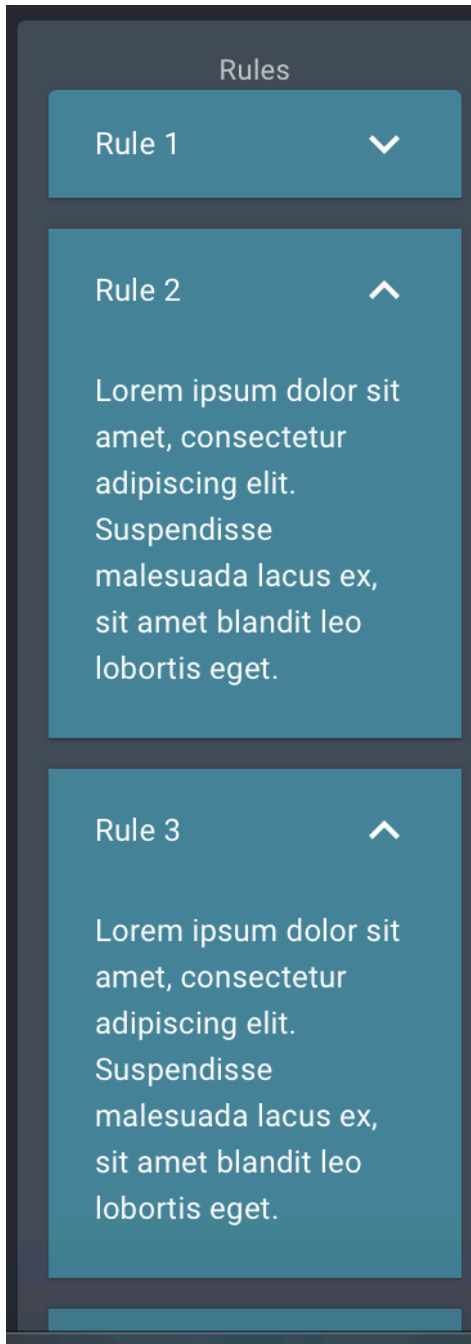

Sentence Review

The Sentence Reviewer component is the center of the front landing page. It will display sentences that have been tagged for review. The reviewer can select correct if they believe the sentence is correct. If they believe the sentence contains an error, the user can select incorrect and check off the rule(s) they believe the sentence violates. Another sentences will keep appearing once marked.

Display of Rules

On the right side of the front landing page there is a display of the rules. It shows each rule with a drop down explaining the rule and what a violation of that rule entails. This will help the reviewer understand more clearly if they are unsure whether or not a rule pertains to a tagged sentence.

Rules	
Rule 1	⌄

Rule 2	⌃
Lorem ipsum dolor sit amet, consectetur adipiscing elit. Suspendisse malesuada lacus ex, sit amet blandit leo lobortis eget.	

Rule 3	⌃
Lorem ipsum dolor sit amet, consectetur adipiscing elit. Suspendisse malesuada lacus ex, sit amet blandit leo lobortis eget.	

Leaderboard and Ranking System

On the left side of the front landing page there is a leaderboard and a rank component underneath. The leaderboard corresponds to the reputation system of the application. Reputation is earned through correctly reviewing a sentence (as correct or incorrect). The Top 3 Reviewers with the highest reputation and their current scores will be displayed on the leaderboard. The ranking will show what the user's current score is as well as where they compare to the others on the leaderboard.
